Manufacturers report cream production is keeping up with contractual expectations and spot demands in the West. Demand from butter manufacturers for spot cream is steady. Butter manufacturers report strong production schedules. A few butter makers note demand for unsalted butter is outpacing their production. Stakeholders are more actively looking for open capacity for micro-fixing butter stocks. Unsalted butter inventories are tighter than salted butter inventories, but traders indicate spot loads can be found. Butter demand from domestic and international buyers is steady.

Prices for: Western U.S., All First Sales, F.O.B., Grade AA, Conventional, and Edible Butter

Bulk Basis Pricing - 80% Butterfat \$/LB:	0.0000 - +0.0300
