Each case must have all of: (1) a written agency response seeking clarification about the scope of records sought; (2) a written requester response that clarified the request; (3) a final determination letter; and (4) a case closure date within the specified date range. For each of these case files, I seek only: (1) the initial FOIA request; (2) the agency's scope clarification letter (or email or similar record); (3) the requester's clarification response or the request as it was ultimately processed; (4) and the final determination letter. I am studying how agencies and requesters work together to clarify and refine requests, so I need only the substance of these communications, not any personally identifying details. 2025-AMS-00045-F	11/04/2024	Alloo, Feroz	List of POCs of all certified operations. I'm interested in starting a forum to provide support mechanism for all NOP certified operations, primarily there are many parts of NOP that are in the grey area and I believe a support site will be beneficial to many small businesses or individuals interested to get support from the experienced support members. I tried NOP Appeal myself and it backfired in reaching out to them, I wish there was a better support mechanism for us to reach out and find the implications of "what to do" and "what not to do" instead of reaching to NOP Appeal group. Request list is to generate interest with the respective POCs so a forum can be supported, contact information will only be used to advise on the new forum site so they can contribute and help other individuals including themselves, latter if needed.

I'm also interested in information on how the cheese storage program is used to stabilize dairy prices or save American consumers money, and any connections between these cheese reserves and federal nutrition programs such as SNAP. 2025-AMS-00199-F	06/08/2025	Kachuck, Norman	The Hass Avocado Board maintains a copy of the updated directory of names, addresses and email addresses for California avocado growers, which it obtains from the California Avocado Commission. The state group declines to share this directory with us, or to assist in our canvassing the growers to satisfy the requirements of the International Trade Commission that are needed to submit an actionable complaint through them regarding the avocado industry. Please furnish us with this directory. The HAB chief officer Emiliano Escobedo referred us to Mark Green to pursue this FOIA request. We and legal counsel have determined that, given that the HAB and the CAC are public institutions, and there is no process for individuals on that list being able to specify whether they wish their identities to not be disclosed, that there is no clear legal basis for maintaining the listings of fellow members of our community for privacy reasons. We request that directory copy be shared with us.

The two certifiers are: (1) Organización Internacional Agropecuaria ("OIA"); and (2) QIMA (formerly IBD Certifications). Specifically, I am interested in the official "Warehouses Licensed Under the U.S. Warehouse Act" lists (sometimes referred to in the Federal Register as the "list of warehouses and availability of list of cancellations and/or terminations") as of December 31 for each year prior to 2000. I have these lists for the years 2000-2015, but know such lists were produced and made available, as a notice was published every year in the Federal Register to indicate their creation, and availability through the USDA FSA. Such a notice was for example published in the Federal Register under the name "64 FR 19118 - List of Warehouses and Availability of List of Cancellations and/ or Terminations".
