

OFFICIAL LISTING FOR THE EXPORT VERIFICATION PROGRAM

READY-TO-EAT (RTE) PRODUCTS DESTINED FOR CANADA

(LAST REVISED JULY 17, 2026)

The program is designed to verify an establishment's control of closed-faced sandwiches destined for Canada. The participants listed below have been evaluated by the United States Department of Agriculture (USDA), Food Safety Inspection Service (FSIS), and have been found to be in conformance with the requirements of the USDA, Agricultural Marketing Service (AMS) Export Verification (EV) Program of Ready-To-Eat (RTE) Products Destined for Canada. For closed-faced sandwiches produced under FSIS voluntary inspection, AMS conducts microbiological testing, on behalf of FSIS, to verify the adequacy of the establishment's food safety system in producing RTE products. Only establishments participating in this program can export closed-faced sandwiches to Canada. The program is managed by USDA, AMS, Science and Technology Program, Laboratory Approval & Testing Division.
